## WORK EXPERIENCE

**Network Components pvt. Ltd** 2017-PRESENT  
Sr. Android/Flutter Developer

Developed and maintained high-performance Android applications using Kotlin and Java. Mentored junior developers on best practices in Android development and coding standards. Led project planning sessions to align development efforts with business objectives and timelines.

**Darwin Wellness**([https://play.google.com/store/apps/details?id=com.delos.welltekmobile.native\\_v2\\_welltek](https://play.google.com/store/apps/details?id=com.delos.welltekmobile.native_v2_welltek))

- Darwin wellness is a android IOT based application. This application supports mobile also tablet, according to device type UI will changes. This App mainly developed for home automation in that we provides many features like controlling home appliances, set simulation(alarm with light intensity,sound etc), indoor/outdoor climate acknowledgment.

**Clouzer Edge**(<https://play.google.com/store/apps/details?id=com.clouds.developers.cewellness&hl=en&gl=US>)

- Clouzer Edge is developed for experiencing home automation on multiple platforms. Clouzer Edge UI changes according to screen size differ on mobile and tablet devices. Expect from controlling home appliances, also other features are available in this app like schedule scene, sensing indoor/outdoor data with the help of different types of sensor and many more features.

**EvkApp**([https://play.google.com/store/apps/details?id=com.enviroklenz.developers.enviroklenz&hl=en\\_IN](https://play.google.com/store/apps/details?id=com.enviroklenz.developers.enviroklenz&hl=en_IN))

- Manage building wellness seamlessly with EnviroKlenz SMART Science™, a revolutionary, autonomous approach to indoor air quality monitoring and management. Achieved through a blend of patented filtration science driven by intelligent IoT technology, actively detect in-room conditions, autonomously correct IAQ issues, and reflect operational efficiencies and trends through its comprehensive SMART dashboard and provisioning app.

## SKILLS

### Mobile app development

- **Experienced with IDEs:** Android Studio and Visual Studio
- **UI design:** XML layouts, Jetpack Compose
- **Analytics:** Firebase analytic, Google Analytics
- Experience with state management using RxAndroid
- **Protocols:** TCP, FTP, MATTER, MQTT, HTTP
- Proficient in integrating RESTful APIs with **Volley** and **Retrofit**
- Experienced in utilizing **SQLite** and **Firebase** Real-time Database for data management
- **Version Control:** Gogs, GitHub,
- **Languages:** JAVA, Kotlin

## Cross-platform development with Flutter

- **Experience with state management solutions:** GETX, BLOC, PROVIDER
- **Language:** Dart
- **Local Database:** Sqflite, Hive, SharedPreferences
- RESTful apis integration **HTTP, Dio**
- **Web Development Skills:** HTML, PHP, FLUTTER
- **Database:** Sembast, isar, mysql, Firebase real-time database
- **Other development skills:** Socket programming, FCM, compatibility app development, ADB commands
- **Software Architecture Patterns:** MVC, MVVP
- **Automated CI/CD Release Pipeline:** GitHub Actions, Jenkins

**Clouzer**([https://play.google.com/store/apps/details?id=com.clouds.developers.cewellness&hl=en\\_IN](https://play.google.com/store/apps/details?id=com.clouds.developers.cewellness&hl=en_IN))

- Monitor and control Lights, HVAC, AQI, and Sound settings from a single hub. Create your ideal living space effortlessly and optimize your comfort and well-being.

**CloudsInc**(<https://webapp.clouzer.com/>)

- This web application enables users to view complete details and activities of their properties while also providing full control over connected home appliances. It allows property owners to monitor, manage, and configure their devices seamlessly. Additionally, users can set up and configure their HUB directly through the application, ensuring smooth integration and centralized management of all smart-home functions.

**Clouds Maintenance**(<https://prodmnt.clouzerindia.com/>)

- This web application allows users to manage and configure their Hub with ease. It provides detailed visibility into Hub activities while enabling users to perform various actions such as updating, rebooting, and performing a factory reset. With these comprehensive controls, users can efficiently maintain and optimize their Hub's performance.

**BR Technobizz,Pune**

2016-2017

Android Developer

**Egram**

- This mobile app mainly developed for rural Grampachayat. User can download and print their all types of certification like birth certificate, death certificates and so on.

**Toll Plaza**

- In this project, E-cards provided to every user of toll plaza, they can pay their toll charges on toll booth by this cards and in application they see updated like current balance, deducted balance etc. Some other feature like nearest toll booth, add account and so on are provided in this app.
